Specification farfalla camper – basic configuration

The following specifications relate to the farfalla camper version4.
Differences to the farfalla camper version2 are described at the end.
Options are described in the price list.

Trailer

The basis for the farfalla camper is the box trailer LK 1325-14-1420-N by Unsinn Fahrzeugtechnik GmbH (<https://www.unsinn.de/en/trailers/plywood-cargo-trailers-type-lk/lk-1325-14-1420-1-achsig>):

- Inside dimensions (LxWxH) 2.55 x 1.42 x 1.53m
- Vehicle dimensions (LxWxH) 3.93 x 1.92 x 2.11m
- Braked (automatically adjusting)
- Maximum authorised weight 1,300kg (optional reduction down to 950kg)
- Plywood box, white
- Mudguard made of black plastics
- Load area: skid- and waterproof plywood, 18mm
- Lashing system with 6 adjustable connection rings for optimal load securing
- Lighting with 13-pole connector and reversing light
- switchable 12-volt interior light

Special features for the farfalla camper edition are

- Two side flaps, lockable, each with door locking gear and two foldable supports
- Tailgate opening upwards, lockable, to be opened from inside and outside
- Plywood roof, white
- Four sliding supports
- Two manoeuvre handles
- Version for 100km/h in Germany
- Empty weight approx. 560kg (without camping components)

Tent construction

The farfalla camper's sleeping tents and awning are made of tarpaulin material:

- Spun dyed polyester with PU-coating, 230g/qm
- Waterproof and vapour permeable, soft and flexible
- Maximum UV stability and light fastness, extremely durable und stable
- Resistant to salt water, chlorine and bird droppings
- Dirt-repellent, with anti-mould equipment
- Quickly drying

Further tent features:

- Sleeping tents' windows to be opened from inside with zips with exterior mosquito nets, custom-fit transparent PVC windows to resist wind and rain can be fixed from outside with zips
- Sleeping tents separable to the trailer interior
- Sleeping tent rods made of stainless steel
- Manyfoldly applicable awning with 6 telescope rod and one gable, leash-riggings, herrings and floor tarp
- The awning's window to be opened from outside with interior mosquito net, PVC-window in between with zips
- Tents connected to the trailer using Keder strips and rails
- Mosquito net at the tailgate

Sleeping

Sleeping areas in the farfalla camper cover the benches and the opened side flaps. They offer a maximum of sleeping comfort!

- Firmly bolted benches made of 21mm plywood, coated and chamfered, to be fixed at the trailer with lashing straps
- 2 mattresses 140x200 cm made of high-quality foam material, 10 cm height, lengthwise foldable, with high-quality polyester-cover (looks like linen, water and dirt repellent, flame retarding, with zips, washable) or high-quality rainstop-cover (additionally rain-proof, also for outside)

Storing & loading

- 8 euro containers without cover, each with a volume of approx. 25l and with a foldable handle, as drawers under the benches
- 6 lashing straps to fix the benches, the drawers under the benches and luggage

Storing & loading (partly optional) – adjusted dimensions and numbers regarding the euro containers and protective cases, 5 instead of 8 lashing straps

version2 in difference to version4

The differences of a farfalla campers version2 in comparison to version4 are:

- Trailer – one side flap instead of two (left side)
- Tents – one sleeping tent instead of two
- Sleeping – one mattress instead of two
- One bench instead of two
- Storing & loading – adjusted dimensions and numbers of the containers, three instead of six lashing straps
- farfalla furniture set (optional):
 - mattress 150x200 instead of 140x200cm
 - two instead of four stools
 - table 120x60x74cm inst. of 120x67x74cm
